**Assunto:** Interest in the position of Developer

To the attention of the person in charge

I am writing this letter to express my interest in the position of Developer at your company. As an IT technician, I am a recent graduate of the Computer Science program at Universidade Lusófona - Centro Universitário Lusófona. I am confident that I possess the necessary skills and knowledge to excel in this role.

My technical skills include proficiency in software development using programming languages such as Kotlin, Java, and C. I also have extensive experience in diagnosing and resolving hardware and software issues for desktop and laptop computers. During my studies at Universidade Lusófona, I gained experience working with circuit simulators like LogiSim, MultiSim and MPLAB.

Furthermore, I have excellent interpersonal and communication skills that allow me to effectively communicate technical information to both technical and non-technical stakeholders. I am passionate about using technology to drive business growth and innovation, and I am excited about the opportunity to contribute my expertise to your company's team.

Considering my profile, I am confident that my contribution will be a valuable asset to your company. In return, collaborating with you will provide me with the opportunity to enhance my personal and professional skills. I look forward to hearing from you so that we can discuss matters further in a personal interview.

Thank you very much for your attention.

Best Regards  
Tomás Maria
